

The Beginning of the Year 1900

(Is it the last year of the old century or the first of the new?)
Shows that the sales at the

VACUUM OILS

In the Hawaiian Islands have increased 150 per cent. in 1899, over the sales in 1898.
In connection with these oils, we now offer

Oil for the Troublesome Waters.

EMERALD BOILER OIL.

WHAT IT IS.—Emerald Boiler Oil is a Petroleum extract free from all substances injurious to metal. The special process adopted for its manufacture extracts the volatile properties, while the scale removing properties are retained.

It is of high fire test, and consequently well calculated to withstand the high temperature of steam in the boiler; at the same time, there is no danger of the formation of gas.

For removing and preventing Scale, Emerald Boiler Oil gives the most perfect results of anything for the purpose now on the market.

Its success is attested to by the many who are using it with the best of results.

WHAT IT SAVES.

What Emerald Boiler Oil saves is of more importance than what it costs.
It costs a few cents per day; it saves vastly more in fuel alone.

The aim in every steam plant should be to produce steam at the least possible cost per horsepower.

That is the keynote to the whole situation.

Emerald Boiler Oil keeps down the cost of steam-making, by keeping boilers clean, so that they maintain their full efficiency with a normal amount of fuel.

We trust you see the point, and, seeing, will act by giving Emerald Boiler Oil a trial.

Your orders are solicited.

MISSION SHIP

Need of New Morning Star.

Reminiscence of the Visit of Native Pastors of Hawaii to the Mainland.

The Hawaiian Board, in view of the need of putting a new Morning Star in commission, has adopted a series of resolutions of which this is the concluding one:

Third. Resolved, That in case the American Board should decide to build such a vessel as is contemplated, and in view of the question which has been put to us by Dr. Smith in his letter of November 7, 1899, as to what we think would be done in the Hawaiian Islands toward a new vessel, on the supposition that the American Board should decide in favor of a steam craft with a speed of ten knots an hour, to do all the work except what the Hiram Bingham is doing; we recommend to our patrons, including the Sabbath schools in these islands, that they contribute \$2,500 toward building such a new Morning Star; that is, one capable of extending her annual voyages to Guam and Yap, it being understood that on this latter island two native Hawaiian missionaries and their wives may be placed, to co-operate with the proposed American mission there, as in the Gilbert Islands; and we do the more gladly and earnestly make this recommendation in view of the fact that so large a majority of the patrons of this board present at the foreign mission rally of June 11, 1899, in response to our inquiry, did, by their mode of making their contributions on that occasion, signify to us that they were cordially in favor of an onward movement to Mindanao, and in view also of the intelligence which comes to us in Mr. Price's letter of November 20 that, so far as missionary comity or mentality is concerned, we need not hesitate to enter Mindanao as soon as the door shall be opened, as the Presbyterian Board—who have already entered Luzon—have bidden us God-speed in work for the southern islands of the Philippine group.

In behalf of the committee.
HIRAM BINGHAM,
Chairman.

The editor of the Hawaiian Board's department in The Friend prints this interesting reminiscence of the trip lately made by native clergymen to the States:

"Permit me to introduce to you our latest acquired and newly acknowledged countrymen." This was said to a young lady, probably a boarding-school girl, who sat by my side at a table in a dining-car of the Northwestern Railroad and whose wondering eyes were alternately fixed on Deaha and Kauhane who sat opposite her, as they laughed and exchanged jokes together in Hawaiian.

"Oh! Are you from Hawaii? I am so glad to know it, for I have just come with my aunt from a visit to the exposition in Omaha and you can tell me if Hawaiian women are really like those hula girls we saw there. My aunt and I did not like them—the exhibition they made of themselves was not a nice one, we thought." And then it was that Deaha opened the batteries of his wrath and spoke:

"Please tell your aunt that those poor hula girls do not represent Hawaiian women. They are in the hands of scheming men who are after money and do not care for the reputation of my people. My mother was a Hawaiian woman and they are not like that—tell all your people wherever you go that they are not like that." And we were glad that at least in one mind the false impressions given by the Hawaiian exhibit at Omaha could be eradicated, and that in place of the memory of hula girls there might be the remembrance of courteous, dignified and refined gentlemen, whose lives were given to better things.

The greatest wealth is health.

Many a rich man suffering and sick would give all his wealth for the return of good health. Rich and poor can keep healthy if they pay attention to nature's warnings of approaching disease. If your liver is sluggish, if you feel dull, drowsy, or inactive, if your heart doesn't pump right, palpitations, thumps, sometimes vigorously and sometimes faintly; if your bowels are inactive, or overactive; if your stomach fails you; if your kidneys fail to act naturally; your health is threatened; but there is still help for you if you will take Kikapoo Indian Sagwa. You must act quickly. Disease is progressive; you must stop it at once. Kikapoo Indian Sagwa will do it. Hobson Drug Co., agents for Kikapoo Indian Remedies.
